Customer Data Analytics for Marketers

Regression Modeling for Marketers

Machine Learning for Marketers

Time, Change, and Decisions for Marketing

May 23, 2026

Ahmed Hazem

has successfully completed the online Specialization

Data Science for Marketing

This certificate recognizes the successful completion of the Data Science for Marketers Specialization. In this intensive program, learners have developed a robust understanding of marketing data analytics, regression modeling, machine learning, and strategic decision-making based on time-sensitive data. They have mastered key statistical concepts, predictive analytics, and causal modeling approaches in data interpretation, essential for today's data-driven marketing landscape. This specialization has equipped learners with the skills and knowledge needed to apply advanced statistical and machine learning techniques for market analysis, customer behavior prediction, and optimization of marketing strategies. Graduates of this program understand how to use marketing data to derive actionable

Tony Cox

Dr. Tony Cox, President
of Cox Associates,
Associate Professor of
Business Analytics at
the University of
Colorado, Denver

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
